OIL FIELDS

Numerous structures usually carrying lights Mo(U) 15s, fog signals Mo(U) 30s and other unlit objects and submerged obstructions sometimes marked by buoys, exist in the oil and gas field areas. As these features are not all charted, special caution should be exercised by vessels navigating in the vicinity. Unauthorized navigation is prohibited within 500 meters of all such structures. Tankers maneuvering in the vicinity of platforms and moorings should be given a wide berth.
